

Please do not displace AIR 1 by and LPFM broadcaster! It is the ONLY station my children and I can listen to that is Christian based rock. If it is removed, I cannot keep my children interested in music that is spiritual, but yet appealing to their tastes. Children in the community would suffer by then having to listen to secular rock, which has such negative messages in them and could influence them in a wrong way. AIR 1 is being funded by the listeners and we feel like part of that radio station because of that participation. Please consider keeping AIR 1 on air for the young Christian community. They have such an influence on our future and we need them to have positive values instilled in them that AIR 1 helps the parents to provide. Thank you for your time and consideration.
